Achievements ■

CDMA2020: The 6th International Conference on Data Science and Machine Learning Applications

CDMA2020, the 6th edition of 'International Conference on Data Science and Machine Learning Applications' is aimed to gather researchers and Applications developers from a wide range of Data Science related areas such as data analytics, computational intelligence, machine learning, deep learning, pattern recognition, databases, Big Data and Visualization. The Conference will provide opportunities for technical collaboration among data science and machine learning researchers, developers and practitioners in Saudi Arabia, GCC countries and Middle-East region. Acceptance will be based primarily on originality, significance and quality of contribution. All submissions will undergo a blind peer review process before acceptance and possible inclusion in the proceedings of the conference.

Venue: Prince Sultan University, Riyadh, Saudi Arabia
Date : Wednesday – Thursday (4th - 5th March, 2020)

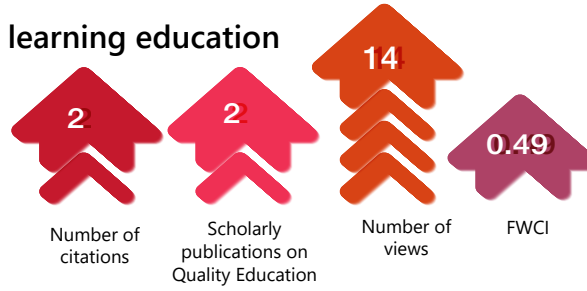

Metrics

Research on early years and lifelong learning education

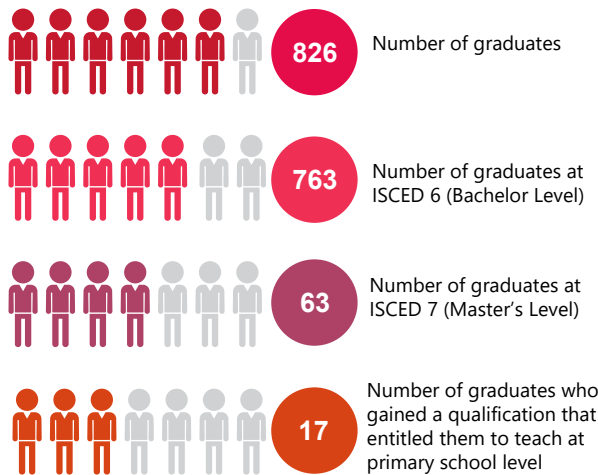

This focuses on research that is relevant to pedagogy, measuring paper views, the proportion of papers in the top 10 per cent of cited journals and the volume of research produced.

Proportion of graduates with teaching qualification

In order to understand how a university is supporting early years education, this measures the proportion of university graduates who receive a degree that would enable them to teach at primary school level in their country. Since PSU does not have a college of education, the number is focused on college of humanities graduates who were qualified to teach English as foreign languages. The number reflects the graduates who has Teaching English as a Foreign Languages (TEFL).
